## **I. INTRODUCTION, CONTINUED**

### **AVAILABLE FUNDING**

There is up to \$95 million of ARRA SEP funds available for the contracts resulting from the Solicitations. An organization may submit a separate proposal for funding under any of the Solicitations and may receive a separate award under more than one solicitation. To be considered for funding, each proposal shall request no more than \$20 million and no less than \$2 million from a solicitation. Requested funding must reflect the level of effort proposed. The Energy Commission anticipates funding one or more separate agreements as a result of this RFP and the Solicitations. The Energy Commission also reserves the right to make no awards under any one or more solicitations; or to award all funds under one or more solicitations; or to award funds to only one bidder.

The Energy Commission reserves the right to reduce the amount of funds available under the Solicitations. In addition, ARRA funding may be reallocated as necessary to best achieve the overall goals of ARRA and state law and policy. Funds identified for the Solicitations may be reallocated and used for another purpose only after the Solicitations have closed and awards have been made or the Solicitations have been modified or cancelled.

The Energy Commission also reserves the right to allocate additional ARRA SEP funds for the Solicitations. As much as \$15 million in additional ARRA SEP funds could be available to augment the Solicitations if the Energy Commission is unable to use these funds as contemplated. If these additional ARRA SEP funds are allocated to the Solicitations, a total of up to \$110 million in ARRA SEP funds would be available for contracts resulting from the Solicitations. The above noted funding caps, a maximum of \$20 million and a minimum of \$2 million per proposal per solicitation, are still applicable.

### **FUNDING LIMITATIONS**

Applicants are encouraged to use existing sources of federal, state and utility funding to leverage the ARRA SEP funding available through this solicitation. ARRA SEP funds may be used to supplement these existing sources of funding, but may not be used to supplant these existing funds.

Pursuant to the federal ARRA guidelines, ARRA SEP funding may not be used to fund projects for gambling establishments, aquariums, zoos, golf courses or swimming pools. No more than 20 percent of each award shall be used to purchase office supplies, library materials, or other equipment whose purchase is not otherwise prohibited. In addition, ARRA SEP funding may not be used:

1. For construction, such as construction of mass transit systems and exclusive bus lanes, or for construction or repair of buildings or structures;
2. To purchase land, a building or structure or any interest therein;
3. To subsidize fares for public transportation;
4. To subsidize utility rate demonstrations or State tax credits for energy conservation measures or renewable energy measures; or
